urbjir01@gmail.com

ABOUT ME

During university, I started a business in the gastronomy sector, where I worked for nearly 10 years. In 2022, I sold my company and, in April 2023, began an intensive IT course focused on Java, which I completed in August. I gained programming fundamentals and experience with various tools, all in English, making daily communication in English no problem. Afterward, I joined Komerční Banka as a Junior Java Developer. I'm seeking a company where I can continue to grow and gain experience, offering reliability, a strong work ethic, and a willingness to learn.
